

**SLIVERS-OF-TIME**

Slivers-of-Time working is for anyone with spare hours to sell to local employers.

## Case Study: Event Stewards

### SLIVERS-OF-TIME WORKING: Case Study

BUYER	London Borough of Newham
REQUIREMENT	Stewards for one off "Big Sunday" event

Traditional fulfilment	Traditional booking and interviewing of temps. To save overheads in identifying more individuals, temporary staff would be booked for the full 8 hour day.
Slivers-of-Time route	16 provenly reliable sellers booked, each for a 4 hour shift on the day. Shifts were phased in anticipation of busiest times.

	Before SoT	Working through SoT
Productivity	A tough full day of work for someone dealing with queues and crowds for 8 hours	Shorter shifts meant brighter less weary stewards
Quality control	Temps to be overseen and monitored	Sellers had already established an economically valuable track record of reliability that would have been endangered if they had not worked well on the day
Impact on local employment	8 individuals employed.	16 sellers exposed to the work

*"Your students [sellers] were invaluable in helping us make the day a success. They were incredibly reliable and efficient".*

**Margaret Almond, London Borough of Newham**
